

OEM / Wholesale Safety & Compliance Statement

This document is provided for OEM, ODM, wholesale, and private-label partners to outline the safety framework, material standards, and compliance alignment of the Soccer Splash Pad with Inflatable Goal supplied by Epsilon.

1. Product Scope

Product Type: Square Soccer Splash Pad with Integrated Inflatable Goal

Primary Use: Outdoor water play for children (3+) and pets under supervision

Application Scenarios: Retail, promotional programs, private-label distribution, project-based supply

2. Materials & Construction Overview

- Primary material: Thickened PVC formulated for outdoor recreational use
- Heat-welded seams for structural stability
- Integrated water-spray channels along the perimeter
- Reinforced inflatable goal structure with balanced load distribution

3. Safety Design Considerations

- Shallow water spray design to reduce drowning risk
- Rounded inflatable edges to minimize impact injury
- Non-slip textured base to reduce movement during use
- Designed for use on flat surfaces (grass, concrete, decking)

4. Compliance Alignment (Reference Framework)

The product design and material selection align with the general requirements of the following standards:

- EN71 – European Toy Safety Directive (mechanical & material safety principles)
- CPSIA – U.S. Consumer Product Safety Improvement Act (material and chemical restrictions)
- ASTM F963 – Standard Consumer Safety Specification for Toy Safety
- REACH – EU chemical substance regulation for restricted materials

Note: This document is not a third-party test report. Formal laboratory testing can be arranged upon request.

5. OEM / ODM Customization & Compliance Support

For OEM and ODM programs, Epsilon supports compliance-related customization including:

- Material adjustments to meet regional regulatory requirements
- Custom labeling, warning text, and multilingual instructions
- Pre-production samples for partner validation
- Coordination with third-party testing laboratories when required

6. Usage & Responsibility Disclaimer

Final compliance responsibility depends on the target market, branding entity, and distribution channel. Partners are responsible for confirming applicable local regulations and certification requirements prior to market release.

Prepared for OEM / Wholesale partners by Epsilon.

This document may be shared during commercial discussions and sourcing evaluations.
